

# Filing Manager

## One Controlled Process From Concept to Final Approval.

Adaptify Filing Manager simplifies every step of the regulatory filings. Assemble filing-ready packages, manage supporting materials, route for signatures, track objections, coordinate responses, and carry each filing through final approval with full traceability.

## What You Can Do.

01

### Assemble Filing-Ready Packages

Compile jurisdiction-specific filing packages with approved forms, rules, and documents.

02

### Rigorous Workflow From Prep to Closure.

Track filings across milestones, decisions, and handoffs from preparation through closure.

03

### Respond to Objection Response Faster

Capture objections and link them directly to responses to accelerate approvals.

04

### SERFF-Aligned System

Execute filings across states with a SERFF-aligned structure and requirements.

## Key Benefits.

- Reduce filing preparation time with built-in package assembly from governed, approved content.
- Never miss an objection deadline. Structured tracking keeps every response on schedule.
- Achieve audit-ready traceability from initial submission through final DOI disposition.
